

The Best of Both Worlds with Neural Translation and Dragon

When?

May 29, 2020, from 9 a.m. to 12 p.m.

Webinar

To register for this webinar, you first need to create an account on the OTTIAQ Portal. This is to facilitate communication with you about the webinar.

Register

Recognized hours: 3 hrs

Fees reduced by 25%

Members: \$95

Certification candidates: \$95

Student members: \$47.50

Students – university mentorship: \$47.50

Members 65 and over: \$47.50

Members of an OTTIAQ partnership organization: \$95

Non-members: \$165

Given the growing use of neural (pre)translation, is dictation still worthwhile for translators? The answer is yes—with a few strategic tweaks that will give you back control over your work tools. Boost your productivity, enjoyment and text quality using a global approach tailored to your own professional situation.

The workshop looks at the most effective CAT tools and platforms (including demos), introduces participants to Dragon NaturallySpeaking and shows how to use dictation in conjunction with various translation environments. The contents include troubleshooting for the most common issues and coaching to enable each participant to develop their strategic technology plan for 2020.

No prior experience with Dragon is required. Newbies will learn all they need for a great start with dictation, while experts will learn advanced tips to maximize their results according to their work environment.

Reap the rewards... with the best of both worlds!

Trainer

Joachim Lépine, Certified Translator

Joachim Lépine, M.Ed., C.Tr., is the owner of Traductions LION and a lecturer at Université de Sherbrooke. He is also the founder of the

Regroupement des langagiers de l'Estrie, the coordinator of the OTTIAQ Continuing Education Committee, and a seminar instructor on communication-related topics. His passion is for delivering outstanding translations while helping colleagues and clients to achieve new levels of excellence.
